Prices effective January 1<sup>st</sup> 2017 and subject to change without notice.

Dimensions with a **BOLD** number means no reducer is used.

\* When ordering please supply shaft and stern tube diameter.

\*\* Requires larger bellow and carbon cuff reducer

### IMPORTANT NOTE:

Please be sure to never use the same set screw on the shaft twice. There are two set screws in each of the two holes in the stainless steel rotor. One is tightened onto the shaft, and the other is tightened onto the first lock it in place against the shaft. The set screws are made with a cup at the base that compresses into the shaft, ensuring a secure grip. PYI's Maintenance Kit comes with five new set screws included. When reinstalling the rotor, please use the new set screws. In the case that you do not have spare set screws, the set screws in the rotor need to be reversed, so there is an unused cup being compressed onto the shaft.

### Necessary information when ordering:

Shaft Size: \_\_\_\_\_

Stern Tube (O.D.): \_\_\_\_\_

### Example:

1 1/2" Shaft, 2 1/2" Tube = **07-112-212R**

To place an order, please contact PYI Inc.
