FENDERTEX[®]

INFLATABLE TEXTILE FENDERS

ULTRALIGHTWEIGHT & INFLATABLE

SPACE SAVING

MODELS

CYLINDRICAL FENDER

The cylindrical fender is the most common fender shape. Built with stainless steel D-rings located at the top, this fender can be positioned vertically or horizontally with use of Long Side Cover.

SPHERICAL FENDER

The spherical fender is usually used as a hand held fender during maneuvers due to its width, but is also used as a standard fender on larger vessels.

TANDEM FENDER

The tandem fender is designed for swim platforms as well as sailboats. The dual tube design prevents it from rolling on itself and protects a larger hull area than other shaped fenders.

STORAGE SPACE COMPARISON FOR A 50' BOAT

FENDER TYPE	SIZE WHEN DEFLATED
Fendertex	6" x 17"
Traditional PVC	15" x 41"

WEIGHT COMPARISON FOR A 50' BOAT

FENDER TYPE	WEIGHT
Fendertex	3.25 lbs
Traditional PVC	11.25 lbs
Inflatable PVC	6 lbs

SPACE SAVING

When Fendertex® Fenders are deflated, they are:

- 95% smaller compared to traditional PVC fenders
- 50% smaller compared to other inflatable PVC fenders

ULTRALIGHTWEIGHT & INFLATABLE

- Up to 95% lighter compared to traditional PVC fenders
- Up to 40% lighter compared to other inflatable PVC fenders

STRONG & DURABLE

- Compression strength ranges from 4,400 lbs to 44,100 lbs
- Adapts to large temperature fluctuations and holds its shape after long periods of compression
- Highly resistant to UV color fading due to the use of our specialized dye technique
- Easily cleaned in a standard washing machine

CUSTOMIZABLE

- Have your logo, boat name or custom design knitted into a fender cover
- 10 color options available for the fender, cover, whip and D-rings (refer to page 4 of this brochure for color options)
- Custom sized fenders available upon request

Customized Fender
