## 11-FA0-34

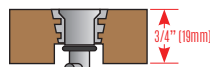

### 1/2" Panel

With 1/2" (12mm) panels the receiver will sit flush. A minimum of 1" (25mm) is needed for the sole.

### 3/4" Panel

With 3/4" (19mm) panels you will have a small portion of the receiver above the sole. A minimum of 3/4" (19mm) is needed for the sole.

## 11-FA1-00

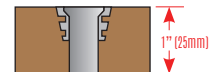

### 7/8" Panel

With 7/8" (22mm) panels you will have more of the receiver sitting below the sole, thus the sole will require counter boring. A minimum of 1-1/8" (29mm) is needed for the sole.

### 1" Panel

With 1" (25mm) panels the receiver will sit flush. A minimum of 1" (25mm) is needed for the sole.

### 1-1/4" Panel

With 1-1/4" (32mm) panels you will have a small portion of the receiver above the sole. A minimum of 3/4" (19mm) is needed for the sole.
